

## Words

Your speech  
pleases me

Your words I easily  
digest

They come forward  
clippety clop

I rather take long  
steps

In fact I am a bit  
slow

In the word's use and ways

I am rather fond of the  
trick

of speech without words  
surging through forests, mountains  
and land

arriving at bulls eye  
right where you live.
